

NEED MORE BALANCE?

Whether you're a business professional or a church leader, because of technology, work now follows you everywhere and finds you at any time. Add to that landscape the personal "power drains" where individuals lack the boundaries to set and maintain their own agenda, and it is possible to go through an entire day, week, month, year or more and get pulled away from the things that will make or break your goals and objectives, as well as your personal life.

Don't miss this opportunity for a realistic and refreshing approach to regaining control of your life personally, spiritually and professionally. Charge up and avoid the power drain, it will challenge you both as a leader and as an individual.

The Center for Leadership Impact, an initiative of Evangelical Theological Seminary, is committed to developing Christian leaders who are interested in a lifetime of growth and advancement. Fully aware that integrity and skill are vital ingredients for effective leadership, the Center is devoted to providing initiatives that give leaders traction in the real world. Explore the Center's opportunities at www.center4li.org.

Today's leaders are working harder, longer and with more chaos; yet, they are focusing much less on what is vital to achieve the results they desire.

Does that sound like you? If so, join us at this year's Fall Leadership Forum where Dr. Henry Cloud will present his message, *The One-Life Solution*, and help you discover how business and personal success often hinge on one, important key factor.

Dr. Henry Cloud is a clinical psychologist and leadership consultant with a unique ability to connect to audiences. Drawing upon his broad range of experiences in private practice, leadership consulting, business and media, he simplifies life's issues and gives easy to understand, practical advice. It's Dr. Cloud's humor, compassion, and "in the moment" confrontation that make his approach to psychology, business and spirituality such a success.

Dr. Cloud has written or co-written over 20 books, selling a total of over 5 million copies including *Boundaries*, *Integrity: The Courage To Meet The Demands of Reality*, *9 Things You Simply Must Do: To Succeed in Love and Life*; and most recently, *The One-Life Solution*. His books have earned three Gold Medallion awards and the distinguished Retailers Choice award for a book and television partnership with Time-Life and Integrity Publishers.

Dr. Cloud founded and built a health care company which operated inpatient and outpatient treatment centers in thirty-five cities in the Western U.S. He is a graduate of Southern Methodist University, earning a B.S. in psychology with honors. He completed his Ph.D. in clinical psychology at Biola University, and his clinical internship at Los Angeles County Department of Mental Health, and did his doctoral dissertation in leadership personality. He lives in Los Angeles with his wife, Tori, and their two daughters, Olivia and Lucy. To learn more about Dr. Cloud visit www.drcloud.com.
